

BEYOND TEXT

Arts-based research practice

About Beyond Text

Beyond Text is a collaborative international project concerned with Arts-Based Methods in Research, Evaluation and Assessment.

The focus of the project is on finding ways to support practitioners and researchers, within universities and those professions and organisations beyond, to use the arts to conduct high quality research, assessment and evaluation through practice.

We will be creating a Level 7 module (Masters & Doctoral) that equips participants from all disciplines, including mainstream education, youth, social and health care, business, maths, science and engineering to develop and apply innovative arts-based approaches within their diverse fields.

We welcome individuals and organisations to contact us if you are interested in contributing to and learning from this exciting project.

Email us at recap@chester.ac.uk or visit the Facebook page by scanning QR code
